## **NOTE:**

THIS IS A DYNAMIC WORKING DOCUMENT AND SUBJECT TO CHANGE.  
Questions or comments can be directed to [info@intelcenter.com](mailto:info@intelcenter.com). The latest release can be found at <http://www.intelcenter.com>.

## **INTRODUCTION**

One of the greatest challenges in working with the more than 13,000 terrorist and rebel videos released so far is finding the material you are looking for and discovering what you did not know existed. The Video Component of the IntelCenter Database (ICD) has powerful search features that allow you to search on everything from the title, group, runtime, appearances, type of content and more than 30 additional structured fields. However, we are going one step further with this guide and providing a managed list of the most significant jihadi videos since 1990. We will be continually adding new listings. You can always make sure you have the latest version by visiting <http://www.intelcenter.com>.

The guide is broken up into categories that are based on the type of content one may be looking for or trying to remember from years back. Each listing provides the title, group, release date and a note on the point of interest. In addition, the ICD-V ID# is provided for each video. Find the ones you are interested in, enter the ID# into the ICD-V and you can instantly be watching a secure, authenticated, high-quality streaming version on your computer, iPad or smart phone from anywhere at anytime.

If you do not currently have an account on the Video Component of the IntelCenter Database (ICD), you can see full details, video demos, screenshots and subscribe at <http://www.intelcenter.com/icd/>
