And we say to America, Britain, Italy and France, who have frantically mobilized against the Muslims, and we say to the rulers of Jordan, Saudi Arabia, Kuwait and Qatar, who have allied with them, indeed, the Messenger (sallallahu 'alayhi wa sallam) said, "We have only come to you with slaughter." And we will surely come and slaughter you, by Allah's permission. And whatever allegiances you make against us and whatever strikes you carry out on us, you will not stop our advance. In fact, we started everything from scratch and relied on people who did not have a large amount of experience, but rather put forth simple effort. We relied mainly on the enemy's leftovers. We have used some of the material used by the enemy in the military field. We have gathered and reused these materials, including the shells of bombs which never exploded as well as SPG 9 guns. We have recycled these and equipped them with military warheads. We have also used non-conventional cylinders, not the common 120mm and 180mm calibers, available in the market for the making, God willing, of mortar launchers and artillery guns such as the 126mm, 91mm, and 77mm calibers. We have also used the cylinders to produce mortar shells. Following some test-fire, we have established a launch wall platform for them. These have been used in the fighting fronts and resulted in precise hits that affected the enemy significantly."

You are living in the West, you can cause terror in the hearts of the kuffar, right in the centre of the kuffar, you can cause terror right from within."
